

SUNNYSIDE COMMUNITY ASSOCIATION
2004 ANNUAL MEETING
April 20, 2004

BOARD MEMBERS PRESENT:

RJ & VALERI CARDELLO
DAVE WIELANDT
AL WILLARD
SAM MOREALE

MEMBERS PRESENT:

BOND, CULP, GILL, GISBRECHT, KALLISH, LAFRANCHI, LAMAN, MENDENHALL,
MYERS, PETERSON, ROWE, SARULLO, TROST, WILL and WILLENS

PROXIES RECEIVED:

BRUMFIELD, GRANER, HARWOOD, JACOBSON, JOHNSON, PAGES, SCHWEBEL,
SPELLACY and URIU.

QUORUM REQUIREMENTS WERE MET (26 Families) AND THE MEETING BEGAN AT 7:00 PM

1.0 Traffic Issues

Jack Rydell, a traffic representative from the City of Rancho Palos Verdes, graciously attended the meeting to address SSRR resident concerns. Mr. Rydell explained that the newly-elected RPV city council is dedicated to making fundamental changes to traffic issues on the Peninsula, while maintaining the area's unique character. The City is currently in the process of developing a set of innovative tools to use in their forthcoming traffic program.

SSRR residents shared several traffic concerns with Mr. Rydell, the primary issue being 1) the number of accidents and lack of signage at 'Dead Man's Curve.' Also discussed were 2) the dangers of bicyclists on the road instead of the shoulder, 3) the high number of accidents along Palos Verdes Drive East (PVDE), 4) determination of public right of way on SSRR at PVDE, and 5) lack of clarity on Sheriff accident reporting to the City. Mr. Rydell explained that traffic investigations are completed on a first-come, first-served basis, and he added the above five concerns into the City's worklist.

The SSRR Board of Directors will continue communicating with the City to obtain closure on the above 5 resident concerns, and follow-up information will be provided to the membership via the website and future meeting minutes. If you would like to address additional traffic concerns to the City, you may contact Jack Rydell directly at phone: (858) 467-6950, cell: (619) 787-5173 or email: jackr@rpv.com.

2.0 Social Activities

Dave Wielandt reported on the success of the Summer and Winter Socials. The members agreed that the small funds invested in the events had high return in terms of networking and neighbor relationship building.

A total of 78 people attended the Summer Social; food and entertainment expenses totaled \$232.64. The Riegers have generously offered their yard as the location of the 2004 Summer Social; date & time will be forthcoming.

The 2003 Winter Social/Holiday Party cost a total of \$651.72 and was attended by 67 residents.

3.0 Resident News

We regret the loss of two neighbors in 2003. On behalf of the Association, the Board sent flowers to both families.

4.0 Treasurer's Report

Al Willard provided a financial report at the meeting that showed last year's expenses and disbursements, along with a proposed budget for the current year that kept 2004 membership dues at last year's rate.

MOTION #1: Dave Bond made a motion to approve the current year budget as submitted, which was seconded by Judy Wielandt. The motion was unanimously approved.

Annual dues will remain at \$60 per family this year and were due on April 30. If you have not already paid your 2004 dues, please make your \$60 check or money order payable to "Sunnyside Community Association" and return it to Al Willard at 2224 SSRR as soon as possible.

5.0 Social Memberships

The Sunnyside Community Association by-laws require membership and support from the current owners of original tracts 1-50 on Sunnyside Ridge. At last year's 2003 Annual Meeting, a motion was made to create a new Social category of membership with annual dues assessed at the Regular member rate.

It has come to the Board's attention that the Association spends most of its annual budget on maintaining the entrance area. Since there are more than five families living 'behind the gate' (i.e. past the SSRR entrance sign) that were not included in the original membership plan requirement, those non-members are enjoying the benefits paid for by the Association. As a result, the Board would like to extend these non-members an invitation to support their community by becoming Social members of the Sunnyside Community Association.

MOTION #2: Sam Moreale made a motion to authorize sending a letter to non-members living on SSRR & Sol Vista to request their support of the community via a Social Membership. The motion was seconded by Judy Wielandt and was unanimously approved. Invitations to join our Community Association have been sent out.

6.0 SSRR Website

Webmaster Mike Sarullo provided an update on the Association website, located at **<http://www.ssrrhoa.com>**. He requested feedback from attendees on potentially including new items such as a Neighborhood Watch update page and a bulletin board discussion area for neighbors. Please check the website frequently for these future improvements as well as the latest Association news.

Dave Bond suggested that Mike send a notification email to members once new items are posted on the website. If you would like to be included in update notices, please send your email address to **msarullo@cox.net**.

7.0 Emergency Preparedness

Many thanks for Sherree Greenwood for her work to date as the SSRR Emergency Preparedness (EP) Coordinator. Sherree was unable to attend the 2004 Annual Meeting, so EP will be a featured topic of an upcoming meeting. Please watch your mailbox for future meeting announcements.

8.0 SSRR Entrance Maintenance

A variety of cleanup and beautification efforts on the SSRR entrance area took place during the past year.

The trees along Palos Verdes Drive East that border the SSRR entrance area were recently trimmed by Dan Siliskovich as part of a view restoration project. Longtime resident Gil Rowe stated that the trees are on public land and have historically been maintained by the City.

Before the holidays, Dave Wielandt painted the wrought iron bars & existing coach lights on the street identifier signs. Mr. Rowe provided some insight on the history of the coach lights. Because the previous fixtures were repeatedly broken by vandals, the coach lights were custom made by a talented metalworker who formerly lived on SSRR.

President Dave Wielandt coordinated the repair of the automatic sprinkler system in early 2004. He would like to recognize Ken & Linda Rieger for allowing new sprinklers located on the north side of the entrance to be connected to their personal water account. The Association was not able to add community-paid service to this side because of piping and paving issues.

Rufino, the new gardener who was hired in 2003, has done a great deal of trimming and clean-up work of our 1/4 acre entrance area plot. Many, many green waste barrels were filled with pine needles, leaves and other debris that had built up during the time that we did not have a gardener on the payroll. After the ground was cleared, Dave worked with Rufino to plant several flats of decorative red apple plants along the slope.

It was noted that the wrought iron railing on the street signs is starting to separate from the stone columns, and the columns are starting to lean. Also, a great deal of trash and discarded sanitary/personal items tend to collect at the entrance area. The openness of the space and available parking make the area attractive both during the day and late at night to area laborers and adolescents, respectively. The Board was asked to address these problems by updating the entrance area and installing some type of visually-attractive barrier such as three rail fencing.

9.0 Entrance Upgrade Project

RPV/Waste Management Grant Application: The City of RPV administers have an annual beautification grant program using recycling refund dollars from Waste Management. The Sunnyside Community Association received this grant approximately 15 years ago and used the funds to repair the roof of the bus shelter and improve the entrance space.

Dave Bond is putting together a new 2004 application for upgrading the SSRR entrance area - the due date is May 31. Program guidelines allow us to apply for a \$4,500 grant with \$1,500 in matching funds. The application requires a site map, project plan, maintenance plan and two separate bids from licensed contractors. If funds are awarded, the project must be completed by December 31, 2004.

Design Plan and Endorsement: A general concept/plan was approved by the membership that includes shoring up and keeping the existing sign and pillars and adding Palos Verdes stone fascia in place of the current ironwork (thus connecting the pillars to create a smooth rock-face). Other items being considered are new electrical wiring and lighting fixtures, updated street name lettering to a modern font in an aluminum or brass finish, colorful flower beds below both signs and split-rail fencing along the entrance to deter non-resident parking and loitering. A detailed plan and cost estimate for the proposed project is being developed by the Board.

Funding: Members discussed options for bridging any gap between the final project scope and the \$6,000 grant (equal to the City's \$4,500 and our \$1,500 membership match). The by-laws allow for special assessments, which have been called for in the past during the life of the Association.

MOTION #3: Sam Moreale made a motion to assess homeowners not to exceed two times the current annual dues rate for the entrance upgrade project. The motion was seconded by Frank Gill and was unanimously approved.

10.0 Election of Officers

The Board would like to thank Sam Moreale for his 2 years of service. A discussion of officers ensued.

MOTION #4: Dave Wielandt made a motion to approve the 2004-2005 officers as listed on the meeting agenda*. The motion was seconded by Sam Moreale and was unanimously approved.

*a) Retiring: Sam Moreale

b) Continuing: Dave Wielandt, RJ Cardello, Al Willard, Valeri Cardello and Ken Rieger.

c) New Position: Board member at large to Mike Sarullo (Website Manager)

11.0 Extension of Governance Documents

The original governance documents for the Sunnyside Community Association will expire on January 1, 2005.

MOTION #5: Dave Bond made a motion to file an official amendment with Los Angeles County to extend the original documents an additional 20 years. The new expiration date will then be January 1, 2025. The motion was seconded by Frank Gill and was unanimously approved.

The Board will write a date extension amendment to the Declaration of Protective Restrictions and will officially record it with the County.

12.0 Adjournment

The meeting adjourned at 9:00 p.m.
