

**SUNNYSIDE COMMUNITY ASSOCIATION
MINUTES OF THE MEETING OF THE BOARD
October 15, 2003
7:00 PM**

PRESENT:

Board Members Present:

RJ & VALERI CARDELLO
DAVE WIELANDT
AL WILLARD

Interested Residents:

DAVE BOND
SHEREE GREENWOOD
LORRAINE KIRK
PEGGY PAGES
JOANNE PETERSON
MIKE SARULLO
MIDGE TROST
JUDY WIELANDT

Regrets:

KEN & LINDA RIEGER
SAM MOREALE

1.0 Treasurer's Report

Al Willard reported that as of October 15 2003, the Association has a current balance of \$2,506.38 in the Treasury. All 2003 Association dues have been paid in full.

2.0 New Residents

Several new families have moved into homes on Sunnyside Ridge. We look forward to getting to know them at the Holiday Party.

2477 SSRR: Welcome to Pat and Aruna Podatoori, who are building this new home.

2563 SSRR: Sean & Michelle Smith have moved into this home (formerly Blacks).

3.0 SSRR Entrance

Maintenance: The Association has hired a new gardener, Romulo, to trim and weed the SSRR entrance area once a month at a cost of \$30 per month. All meeting attendees expressed their appreciation of the improved appearance of the entrance. The previous gardener, Samuel Sun, could not be located.

SSRR Resident Bill Schwebel will continue to maintain the lights and manually water at the entrance for \$20 per month.

The Board would like to thank Dave Bond, who repaired the photocell on the 'electric eye' sensor that controls the timing of the coach lights. Dave fixed the sensor at no charge and the lights now function properly, turning on only after dark.

Holiday Decorations:

Each year, the SSRR entrance is decorated with lights and garland thanks to resident Bill Schwebel. The Board expressed their desire to expand the holiday display with additional items. Dave & Judy Wielandt offered to donate their white reindeer for this purpose. If you are interested in donating any decorations to the Association for the entrance, please contact before December 1st 2003. (Please note that the security of items cannot be guaranteed.)

4.0 Proposed 2003-2004 Expense Disbursements

MOTION #1 It was moved by Dave Wielandt and seconded by Al Willard that the Association approve the following proposed expense disbursements:

- \$500 to update/replace the coach lights at the entrance
- \$500 for the annual Holiday Party
- \$250 for the installation of an automatic sprinkler system on the street side of the entrance around the first of the year (pending bid)
- \$20 per month for the regular planting of decorative annual/perennial flowers at the entrance, starting in 2004.

Motion carried unanimously.

5.0 Social Activities

Summer Social: The 2003 Summer Social held on August 24th was great fun, with 78 individuals from 25 families in attendance. The Association's efforts to limit spending on social activities were successful. Thanks to potluck food contributions and the borrowed furnishings that were shuttled around by the Wielandts, the event cost a total of \$232.64. This cost included hours of entertainment from magician 'Amazing' George, who was especially popular with the kids. Special thanks to Ken & Linda Rieger for hosting the Summer Social.

Holiday Party: Please mark your calendar for the annual Holiday Party on Sunday, December 14th from 5-9pm. All SSRR residents are invited. Dave & Judy Wielandt have generously offered the use of their home for this event. To limit event costs to around \$500, attendees have the option of bringing potluck food items and holiday music CDs to the party to share. Items to be purchased from General Funds include: soft drinks, bottled water, wine, beer, prime rib and several raffle prizes.

6.0 Landscaping Grant from Waste Management

Dave Bond graciously volunteered to obtain a copy of Waste Management's RPV landscape grant application so that the Board can prepare for this effort next year.

7.0 Palos Verdes Homes Association

As requested at the last meeting, Board President Dave Wielandt contacted the Palos Verdes Homes Association (PVHA). The PVHA is currently in the process of defining their mission and building up memberships, which cost \$60 per year. Dave recommended that our Association stay in touch with the PVHA, but not become a participating member at this time.

8.0 Traffic Issues

PV Drive East: The Association is still interested in communicating with local authorities as a follow-up to the traffic accident that involved several SSRR residents on 'Dead Man's Curve' last May. Dave Wielandt will write a letter to the RPV City Traffic Safety Division and will invite this representative to attend our next Board meeting (Feb 2004).

SSRR: The Board discussed the fact that the "Neighborhood Watch" sign was not included on the "No Outlet" signpost that was replaced after the old sign was hit. Coordinator Sidney Bond will follow up with Gail Lorenzen with Neighborhood Watch about how SSRR may obtain another sign.

Being owned and maintained by the City of RPV, SSRR is usually slurry coated every three years and was last serviced in 2000. Dave Wielandt is going to request the City's road maintenance plans for our street and report back at the next meeting.

9.0 Emergency Preparedness/Disaster Communications Service

SSRR Emergency Preparedness (EP) Coordinator Sherree Greenwood is currently putting together our neighborhood plan and resource list. The Board would like to thank Sherree for all of her efforts to get SSRR linked into the Peninsula's Emergency Response Team (PERT).

A key component of our area's preparedness plans is the development of a backup communication method in the event of a phone failure. The Lomita Sheriff's Station, working with the Los Angeles County Disaster Communications Service (DCS), has put together a volunteer group of amateur ham radio operators who will be able to relay information between peninsula residents and law enforcement/disaster officials in the event of an emergency.

To get involved in this effort, Sherree and Jim Gisbrecht recently completed a technical radio class sponsored by the City of RPV and both are now licensed to operate a ham radio. On October 4, the City of RPV's ham radio consultant Walt Ordway did a free assessment of our street. Based on the distance between the Gisbrecht residence and the Sheriff's Station, he proposed a ham radio base station configuration that would cost around \$400. The two additional required radios to be manned by Jim Gisbrecht and Bill Kallish would cost an additional \$200 each. Thus, to participate in the DCS, the Association would be asked to purchase approximately \$800 in ham radio equipment for use by SSRR volunteers. **If you are interested in being trained as an amateur radio operator, or if you can donate any ham radio equipment, please contact Sherree Greenwood.**

After Sherree's presentation at the meeting, the Board determined that a more thorough understanding of the technical setup, trouble-shooting and operation of an emergency ham radio system was needed. In addition, some concerns were raised about the possibility of neighbors experiencing radio/signal interference. As a result, the Board requested that Sherree invite Daryl Ault, DCS leader at the Lomita Sheriff's Department, to come to our next Board meeting to explain the benefits of ham radio communications.

10.0 E-mail Addresses/SSRR Directory

Release of the 2003 Association contact directory is pending receipt of information on some new SSRR residents (welcome!). The Board would like to publish e-mail addresses in the directory, as well as begin distributing meeting minutes and notices electronically. **If you have an e-mail address, please send it to Dave Wielandt.**

11.0 Association Website

SSRR resident Mike Sarullo has offered to create and host a Sunnyside Community Association website at no charge to the Association. Over the next few months, Mike will be constructing the web pages to include meeting minutes, social event photos, newsletters and by-laws. **You are invited to send any SSRR material that you would like posted on the new site to Mike.** Please note that the website will be posted in the public domain on the Internet and will not include sensitive material (such as phone numbers). Please bookmark the forthcoming site, located at <http://members.cox.net/ssrr>.

If, in the future, the Association would like to change the web address to a more personal site name, a new web address can be leased from Cox for \$10 per month, after an initial \$20 setup fee.

12.0 Owner Letter

The absent owner of 2320 SSRR, Mrs. Ridenour, recently wrote a letter to the Board asking that a motion be considered to repeal the portion of the annual dues that pays for social events. While she acknowledged the Association's rights to assess dues (in Article 6 of the Declaration of Protective Restrictions, 1955), she remains opposed to the payment of dues to support social events.

MOTION #2 On behalf of the absent homeowner, it was requested that the Board propose an amendment to the by-laws to repeal or amend the mandatory assessment for social activities. The motion was made and unanimously denied.

The Board would like to thank Ms. Ridenour for her letter. However, meeting attendees unanimously agreed that the \$60 annual dues is of minor financial impact for homeowners. The Board would also like to point out that a concerted effort has been made to reduce the cost of social activities, and these efforts are succeeding.

The Association is committed to properly maintaining the street and neighborhood, in addition to ensuring the well-being of all residents through emergency preparedness and networking activities. As a reminder to homeowners, renting tenants are always invited to attend social events and Board meetings.

13.0 Next Meeting & Adjournment

The Board decided to meet in February to discuss Emergency Preparedness, including the proposed ham radio system. All Association members will be notified in advance and are welcome to attend.

The meeting adjourned at 9:00 p.m.
