

Sunnyside Community Association

Minutes of Special Meeting

June 18, 2014

Special meeting called by Board of Directors to discuss the Sunnyside Ridge Trail Segment of the RPV Conceptual Trails Plan (CTP)

Meeting held at 2443 Sunnyside Ridge Road, which is adjacent to the Sunnyside Ridge Trail Segment.

Present: invited speakers: Lauren Ramezani, RPV Public Works Department Senior Administrative Analyst; Ara Mihranian, Deputy Director, RPV Community Development Dept. (city planning)

SCA members present: Meisterheim (2), DeGirolamo (2), Gill (2), Kallish (2), Gisbrecht (2), Trost (2), Barrett, Parker, Kotowski, Laman (2), LaFranchi (2), Graner
Nonmember present: SherryGreenwood.

1. Meeting began at 7:09. Chrissy Meisterheim welcomed RPV staff and invited them to speak.
2. Ara Mihranian stated he deals with open space and trails within the city, previously focusing on the preserve. He handed out copies of the City's Trails Network Plan, a copy of staff analysis of the County Grant application.

1973 RPV adopted the Conceptual Trails Plan (CTP) and designated most of the east side an equestrian overlay zone. The CTP was updated in 1993, and mapped the Palos Verdes Loop Trail. Including undeveloped segments and segments missing due to lack or abandonment of easements.

Section 5 of the Conceptual Trails Plan – 1993 update, contains the Sunnyside Segment (A28).

Currently the 10 ft remaining easement between 2443 and 2447 is currently too steep to allow safe equestrian use. The Equestrian Committee has often requested funding for improvement; In June 2013 a competitive trails program was announced in the Fourth Supervisorial District of Los Angeles County, in which SSRR lies. A grant under the program was applied for, and approved in the amount of \$300,000 in March 2014. The construction deadline for the grant is 12/31/2015.

Total project cost is estimated to be \$465,000; the remaining \$165,000 has been approved by the City Council and is part of the Capital Improvement Project reserve.

3. The City will hold a series of community workshops beginning in June to obtain feedback on the plan. It is planned that there will be 5 workshops, each dealing with a zone of the CTP, beginning with Zone 1. We will receive notice when our zone (Zone 5) will be discussed.
4. All supporting documents, including the CTP and minutes of the City Council meetings are available on the RPV city website.
5. Sherree Greenwood spoke in favor of the trail, saying it will be good emergency egress in an earthquake or similar catastrophic event.
6. John DeGirolamo expressed concerns that a large retaining wall will be very unattractive to look at right out his front door. Mr. Mihranian said the city would work with him to create an aesthetically pleasing wall, such as a green wall, on which plants such as tomatoes could grow.
7. Frank Gill requested a survey be conducted to ascertain the actual need and desire for an equestrian trail to SSRR considering there are presently no horses on the street.
8. Jack Trost expressed concerns that the wall must be engineered as the slope is extreme, and the project would run over estimated cost. In addition, Mr. DeGirolamo expressed a concern that the grant requires ADA compliance.
9. After Mr. Mihranian and Ms. Ramezani left, the general consensus was to take a poll of SCA membership regarding support and opposition to the Sunnyside Trail and present it to the city.

Meeting adjourned at 9:03
